

Recommended Readings in Stylometry

v 0.2, April 12, 2017

The following list of recommended readings in Stylometry contains three types of entries: either survey papers that help newcomers get a grip of the history and structure of the field; or outstanding papers that have proven to be milestones in the history of stylometry; or particularly insightful applications of stylometry to problems of authorship or other issues that demonstrate best practices or showcase the usefulness of stylometry in various areas.

This list is being published by the 'Stylometry Group' at <https://github.com/christofs/stylometry-bibliography>, April 2017. See also our online, sortable, searchable, machine-readable, and evolving *Stylometry Bibliography* on Zotero: https://www.zotero.org/groups/stylometry_bibliography/items. Contact: Christof Schöch, c.schoech@gmail.com.
